

PAEDIPROTECT

We are

PAEDIPROTECT

From the very beginning, we have dedicated ourselves to the care and (sun)-protection of the particularly delicate and sensitive skin of babies and children and have been producing uncompromising, vegan, animal-test-free and fragrance-free products ever since.

The well-being and health of babies and children is at the core of PAEDIPROTECT and our goal is to support families in choosing suitable skin care and sun protection products.

PAEDIPROTECT was born out of necessity. In 2013, dermatologist Dr. Dr. Gerald Rehor could not find a cream for his own children that contained both sun protection as well as cold protection at the same time and whose ingredients met his high standards. Frustrated, but at the same time inspired by this gap in the market, the idea was born to develop such a product himself and thus also help other people with the same needs.

Our CSO, Dr. Dr. Rehor, along with our current CEO, Dr. Olaf Stiller, came together and PAEDIPROTECT was born! The brand's primary goal from that point on was, and still is, to develop sun protection and skin care products for babies and children, as well as adults, that have the highest possible level of skin compatibility and at the same time meet the requirements for sustainable and environmentally friendly development and resource management, which is currently more important than ever.

Over the past nine years, these ideas have grown into a strong brand that is now successfully represented in the largest and most important drugstore and retail chains in Germany, but also in large parts of Europe.

Throughout the years, we have succeeded in continuously optimising our products, their skin compatibility and unique properties, as well as their level of sustainability. We are proud to say that all our products are vegan, free of microplastics and fragrances, climate-neutral and 100% Made in Germany!

Bur care concept

The care of baby and children's skin is very close to every parent's heart. Babies and children in particular suffer more and more frequently from irritated skin, neurodermatitis and rashes.

That is why it is important to us that all our products have harmless ingredients and are well tolerated even by sensitive skin. Our philosophy at PAEDIPROTECT is simple - our products should care for and protect baby and children's skin, not stress it further.

For this reason, we follow the same care concept for all PAEDIPROTECT products:

Included

- natural oils and butter
- high quality extracts
- gentle cleansing substances
- modern, low irritation UV filters

Skin compatibility dermatologically confirmed

Not included

- animal ingredients
- microplastics
- perfume & essential oils
- silicones
- mineral oils
- irritant alcohols & sulphates
- dyes and preservatives
- PPG/PEG emulsifiers
- octocrylene
- UV filter in nano-size

We are very proud that this philosophy is confirmed again and again. Our skin care line is recommended by 95% of midwives who have tested our products via 'hebammen-testen.de', Germany's first online test portal through which certified midwives test, evaluate and recommend different products for children.

Our Body Oil, Caring Bath, Body Lotion and 2in1 Shampoo & Bodywash have also been rated 'very good' by Öko-Test, a German consumer-oriented magazine which tests and evaluates different products through objective criteria.

It is particularly important to us that our products are constantly reviewed, revised and improved in line with the latest scientific findings. Safe ingredients have had top priority since day one.

The formulations of all our products are fully in line with our philosophy and contain no microplastic particles which are extremely harmful for the environment since they can end up in the ocean where they can be consumed by a variety of marine life, whose organism may be damaged because of the toxic materials released by the particles.

Our products also do not contain neither natural nor synthetic fragrance, which can irritate the skin since it is composed by many allergenic chemicals. Our sunscreen products are moreover coral-friendly, since they do not contain octocrylene, suspected of damaging coral reefs under the Hawaiian Reef Act of 2018. Our products can therefore be considered both good for the skin and the nature.

For us & our environment

>>As a young company in the baby and children's skin care sector, we are of course delighted to support the fact that children can achieve great things with small deeds!<<

Dr. Olaf Stiller, Co-Founder of Paedi Protect AG

The protection and well-being of babies and children goes beyond skin care. As a company, we bear responsibility and want to make our contribution against the climate crisis.

We are very proud to support the children and youth initiative Plant-for-the-Planet since December 2020. We have received the 'climate-neutral company' certificate from the initiative.

The campaign is now officially supported by the United Nations Environment Program and aims to plant one trillion trees worldwide in order to stop climate change.

It is close to our hearts that our youngest children can live in a carefree future without climate damage. Therefore, we have made it our business to act ecologically responsible and to protect our environment. That is why PAEDIPROTECT works according to climate-neutral and sustainable concepts.

We have consistently banned microplastic particles from all our products since 2021 and use UV filters without octocrylene, which are suspected of damaging coral reefs under the Hawaiian Reef Act of 2018, in our sun protection. Our packaging materials do not only come from Germany, but even from very close by, in order to additionally reduce CO2 emissions through short transport routes.

Since we cannot manufacture our products completely without CO2 emissions, PAEDIPROTECT plants trees to compensate.

Help us to support our planet and plant trees with us!

PAEDIPROTECT

Body Oil

PAEDIPROTECT Body Oil contains only high-quality ingredients and was developed as an oil combination especially for demanding skin. It is ideal for mild skin care, gentle cleansing in the nappy area or gentle massage. High-quality plant oils pamper and care for the skin intensively and store long-lasting moisture. PAEDIPROTECT Body Oil supports the natural protective function of the skin and maintains its healthy balance. Also ideal for adults with sensitive and dry skin or for skin care during pregnancy.

- rated “very good” by Öko-Test
- with extracts of mallow, rice & witch hazel
- with rosehip, evening primrose and almond oil
- vegan
- without microplastics
- fragrance-free
- without dyes or preservatives
(acc. to Regulation [EC]
on cosmetic products)
- without silicones
- without PEG/PPG emulsifiers
- without mineral oils

PAEDIPROTECT

Body Lotion

PAEDIPROTECT Body Lotion provides the skin with long-lasting moisture and makes it soft and supple. Panthenol, pure jojoba oil and high-quality mango butter support the skin in maintaining its natural protective film. Thanks to its light texture, it is easy to apply and spread without leaving a greasy film. The natural extracts of bamboo and green tea have a skin-soothing effect and protect the skin from dehydration and external influences.

Also available in travel size (30 ml).

- with extracts of bamboo and green tea
- with panthenol
- with mango butter
- with jojoba oil
- rated “very good” by Öko-Test
- vegan
- without microplastics
- fragrance-free
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones
- without PEG/PPG emulsifiers
- without mineral oils

PAEDIPROTECT

Intensive Care Cream

PAEDIPROTECT Intensive Care Cream for dry and sensitive baby and children's skin regenerates the skin's compromised barrier function. The rich, vegan formula contains high-quality plant oils and natural active ingredients that strengthen the natural barrier function while also having an anti-inflammatory effect. The fragrance-free formulation has a pleasantly light texture, is quickly absorbed into the skin and has a moisturising effect.

- with shea butter
- with shea nut oil
- with coconut oil
- with frankincense and liquorice extract
- vegan
- without microplastics
- fragrance-free
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones
- without PEG/PPG emulsifiers
- without mineral oils

PAEDIPROTECT

Wound Protection Cream

PAEDIPROTECT Wound Protection Cream is a vegan and fragrance-free product, which protects irritated, sensitive skin and, additionally, prevents sores and redness. The particularly mild formula ensures maximum compatibility and gently cares for the delicate skin of babies and children. Our proven formulation of the care trio almond, rosehip seed and evening primrose oil in combination with organic chamomile extract has a skin-soothing effect on irritations and redness.

Please do not apply to open wounds!

- dermatologically approved • with organic chamomile extract
- vegan • without microplastics • fragrance-free • without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones • without PEG/PPG emulsifiers • without mineral oils

PAEDIPROTECT

Face Cream

- with olive oil
- with sheabutter
- with extracts of bamboo and green tea
- vegan
- without microplastics
- fragrance-free
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones
- without PEG/PPG emulsifiers
- without mineral oils

PAEDIPROTECT Face Cream is optimally suited for sensitive or irritated skin. Cold-pressed olive oil and shea butter pamper and care for the skin intensively while also retaining moisture. The natural extracts of bamboo and green tea have a regenerative, strengthening effect and protect the skin against dehydration and external influences. The cream's active formula provides the delicate facial skin with nourishing substances, has a skin-soothing effect on irritations and redness and helps the skin to maintain its natural balance in the long term.

PAEDIPROTECT

Lipcare

SPF **15**

Sun, wind and cold can dry out the lips. PAEDIPROTECT Lipcare with mango extract as well as SPF 15 protects and moisturises intensively helping to prevent the lips from drying out. The vegan formula without beeswax ensures, thanks to the presence of shea butter and berry wax, a comfortable application and a nourishing effect on the lips. PAEDIPROTECT Lipcare is perfect for the whole family: the fragrance and colouring are neutral and the stick does not leave a shiny, sticky effect on the lips. Of course free from perfume and microplastics.

- with mango extract • with shea butter • with bisabolol • vegan
- without microplastics • fragrance-free • without dyes or preservatives (acc. to Regulation [EC] on cosmetic products) • without silicones
- without PEG/PPG emulsifiers • without mineral oils

PAEDIPROTECT

Handcream

PAEDIPROTECT Handcream intensively protects and cares for the hands even under heavy use. Thanks to the innovative formula, extra fast absorption is guaranteed. The fragrance-free and vegan formulation with organic chamomile extract is also suitable for chapped, very sensitive and neurodermatitis-prone skin. It provides your skin with long-lasting moisture – of course, without microplastics.

- ♦ for daily care
- ♦ fast absorbing
- ♦ dermatologically approved
- ♦ provides long-lasting moisture
- ♦ particularly gentle on sensitive or irritated skin
- ♦ vegan
- ♦ without microplastics
- ♦ fragrance-free
- ♦ without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- ♦ without silicones
- ♦ without PEG/PPG
- ♦ without mineral oils

PAEDIPROTECT

2in1 Shampoo & Bodywash

PAEDIPROTECT 2in1 Shampoo & Bodywash gently cleanses skin and hair with mild washing substances of plant origin. The gentle formulation lathers delicately and helps the skin to maintain its natural protective function. The bamboo and green tea extracts contained have a skin-soothing, strengthening effect and protect the skin against dehydration and external influences. In addition, they have an anti-oxidant effect and prevent signs of premature skin ageing. Also ideal for adults with sensitive, dry or neurodermatitis-prone skin. Also available in travel size (30 ml).

- Öko-Test "very good" • with extracts of bamboo and green tea
- no-tears certified • vegan • without microplastics • fragrance-free • without SLS/SLES • without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones • without PEG/PPG emulsifiers • without mineral oils

PAEDIPROTECT

Caring Bath

PAEDIPROTECT Caring Bath is a gently foaming bath additive that is particularly delicate on the skin. Mild plant-based washing substances cleanse and care for the skin without drying it out. High quality sesame oil makes the skin supple, smooths it and keeps it in good condition. The bamboo and green tea extracts contained have a skin-soothing, strengthening effect and protect the skin against dehydration as well as external influences.

Also available in travel size (30 ml).

- Öko-Test "very good" • with extracts of bamboo and green tea • with sesame oil
 - vegan • without microplastics • fragrance-free • without SLS/SLES
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
 - without silicones • without PEG/PPG emulsifiers • without mineral oils

PAEDIPROTECT

Foaming Hand Soap

PAEDIPROTECT Foaming Hand Soap cleanses the hands particularly gently and hygienically without attacking the acid mantle of the skin. The pH-neutral soap contains plant-based washing substances and cares for the skin with aloe vera extract and glycerine. Both ingredients are known for binding moisture particularly well in the skin. The gentle and fragrance-free formulation lathers delicately and helps the skin to maintain its natural protective function. Also ideal for adults with sensitive, dry or neurodermatitis-prone skin.

- pH-neutral
- with aloe vera extract
- vegan
- without microplastics
- fragrance-free
- without SLS/SLES
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones
- without PEG/PPG emulsifiers
- without mineral oils

PAEDIPROTECT

Beach Sunscreen

SPF **50+**

PAEDIPROTECT Beach Sunscreen offers waterproof UV protection for the summer. A highly-effective filter system without microplastics and nanoparticles reliably protects the skin against UVA/UVB radiation with a sun protection factor of 50+. In order to minimise the risk of allergies, special attention was paid to the skin compatibility of the ingredients during development. Thanks to its light texture, the cream is easy to apply and absorbs quickly. The absence of octocrylene makes this product also coral-friendly according to the Hawaiian Reef Act.

- ♦ balanced UVA/UVB broad filter
- ♦ waterproof
- ♦ without nanoparticles
- ♦ without octocrylene (compliant according to the Hawaiian Reef Act)
 - ♦ vegan
 - ♦ without microplastics
 - ♦ fragrance-free
- ♦ without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- ♦ without silicones
- ♦ without PEG/PPG emulsifiers
- ♦ without mineral oils

PAEDIPROTECT

Sun Spray

SPF 50+

PAEDIPROTECT Sun Spray is ideal for on the go and combines high protection with easy application for the whole body. The light formulation is easy to rub in, absorbs quickly and is not sticky. In addition, the skin is cared for by the innovative moisturising complex and does not dry out. PAEDIPROTECT Sun Spray leaves no sticky residue on the skin, making it ideal for maintaining sun protection throughout the day.

- balanced UVA/UVB broad filter • innovative moisture complex
- without nanoparticles • without octocrylene (compliant according to the Hawaiian Reef Act) • vegan • without microplastics • fragrance-free
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones • without PEG/PPG emulsifiers • without mineral oils

PAEDIPROTECT

Face Sunscreen

SPF 50+

PAEDIPROTECT Face Sunscreen (SPF 50+) is our all-rounder for everyday use. The fragrance-free product has a high skin compatibility and the light texture is non-sticky, absorbs quickly and does not leave an unpleasant film on the skin. The innovative formula with sustainable baby apple extract is ideal for protecting and caring for sensitive skin. In order to prevent skin ageing and sun-related late damage, PAEDIPROTECT Face Sunscreen contains advanced IRA (infrared A radiation) protection.

- balanced UVA/UVB broadband filter • with baby-apple extract
- without nanoparticles • without octocrylene (compliant according to the Hawaiian Reef Act) • vegan • without microplastics • fragrance-free
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones • without PEG/PPG emulsifiers • without mineral oils

PAEDIPROTECT

Family Sunscreen

SPF **50+**

The PAEDIPROTECT Family Sunscreen SPF 50+ in the new family size (200ml) is the ideal companion for the next family holiday. The cream is easy to apply and does not leave behind a white film on the skin. The modern UV filter system is organic based and coral friendly (according to the Hawaiian Reef Act). In addition, PAEDIPROTECT Family Sunscreen contains skin-soothing panthenol & allantoin as well as dandelion extract, which is known for its refreshing effect.

- balanced UVA/UVB broad filter • without nanoparticles
- without octocrylene (compliant according to the Hawaiian Reef Act)
 - vegan • without microplastics • fragrance-free
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones • without PEG/PPG emulsifiers • without mineral oils

PAEDIPROTECT

Roll-On

SPF 50+

With the PAEDIPROTECT Roll-On, children can easily apply sunscreen themselves. Application is quick and easy and thanks to modern, skin-friendly UV filters with SPF 50+, the skin is reliably protected from the sun. The PAEDIPROTECT Roll-On is the practical solution for on the go. The sunscreen is quickly absorbed and is not sticky on the skin. The filter system is organic-based and coral-friendly according to the Hawaiian Reef Act. The PAEDIPROTECT Roll-On is also ideal for sensitive skin. Even when applied several times, PAEDIPROTECT Roll-On does not leave a film and is therefore ideally suited to maintain sun protection throughout the day. The innovative moisturising complex cares for the skin and does not dry it out.

- balanced UVA/UVB broadband filter
- without nanoparticles • without octocrylene (compliant according to the Hawaiian Reef Act) • vegan • without microplastics • fragrance-free
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones • without PEG/PPG emulsifiers • without mineral oils

PAEDIPROTECT

Mountain Sunscreen

SPF **50**

The fragrance-free PAEDIPROTECT Mountain Sunscreen is a vegan and microplastic-free sunscreen with SPF 50, offering optimal protection while doing any kind of sports or activities in mountainous areas/at high altitude. The special formula not only provides safe sun protection for higher altitudes, where UV radiation is particularly intense, but also has strong collagen-forming and cell-renewing properties. It is easy to apply, absorbs quickly and does not leave an unpleasant film on the skin.

- balanced UVA/UVB broad filter
- without nanoparticles
- without octocrylene (compliant with the Hawaiian Reef Act)
- vegan
- without microplastics
- fragrance-free
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones
- without PEG/PPG emulsifiers
- without mineral oils

PAEDIPROTECT

Alpine Sunscreen

SPF **50+**

PAEDIPROTECT Alpine Sunscreen guarantees special protection against cold and sunburn for sensitive skin in mountain areas as well as/or in winter. Its unique formulation provides the skin with vitamins, cares for and protects the skin on very cold days. This makes PAEDIPROTECT Alpine Sunscreen the perfect protection against the sun's dangerous rays at high altitudes.

- with organic edelweiss and cembra pine extract • skin-caring/moisturising formulation • with cold protection • with jojoba oil • suitable for neurodermatitis
- without nanoparticles • vegan • without microplastics • fragrance-free • without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones • without PEG/PPG emulsifiers • without mineral oils

PAEDIPROTECT

Cold Weather Cream

SPF **15**

Our very first product! PAEDIPROTECT Cold Weather Cream has been specially developed to protect sensitive skin during the cold autumn and winter season. The innovative formula with SPF 15 is the result of a combination of high quality ingredients such as rosehip seed oil, evening primrose oil and almond oil. The cream is quickly applied and absorbed without leaving unpleasant greasy traces on the skin. Moreover, it moisturises the skin and protects against the cold.

- skin-caring/
moisturising formulation
- with cold protection
- suitable for neurodermatitis
- without nanoparticles
- vegan
- without microplastics
- fragrance-free
- without dyes or preservatives (acc. to Regulation [EC] on cosmetic products)
- without silicones
- without PEG/PPG emulsifiers
- without mineral oils
